

JUAN SEBASTIAN BALDEON

fjc8mp@virginia.edu | 703-220-2430 | Lorton, VA

EDUCATION

University of Virginia, School of Engineering and Applied Science

B.S. Computer Engineering

Charlottesville, VA

August 2023 - May 2027

Hayfield Secondary School

GPA: 4.1

Alexandria, VA

August 2019 - May 2023

RELEVANT COURSEWORK/PROJECTS

CS 3140: Software Development Essentials

Spring 2025

- Learned to build larger object-oriented programs, apply software design principles, and use architectural patterns like 3-layer architecture.
- Gained experience with Java, Gradle, Git, JavaFX, and SQLite, while writing clean, testable code.
- Developed automated unit and integration tests, worked iteratively, and collaborated asynchronously on projects.
- Worked with both front-end (GUI & event-driven programming) and back-end (database management) technologies.

CS 2100: Data Structures and Algorithms 1

Fall 2024

- Developed Java programs using object-oriented concepts like inheritance and polymorphism.
- Implemented and analyzed data structures such as linked lists, stacks, trees, and hash tables.
- Compared algorithm performance, focusing on sorting methods and search tree efficiencies.

ENGR 1020: Engineering Foundations 2

Spring 2024

- Built and trained a CNN to detect and count parasitic eggs in microscopic images.
- Implemented multiple CNN architectures and optimized hyperparameters.
- Developed a prototype web application using HTML, CSS, and JavaScript to host the ML model.

CS 1110: Introduction to Programming with Python

Fall 2023

- Designed software solutions for data analysis, games, and web scraping.
- Applied programming fundamentals such as loops, conditionals, and functions.
- Collaborated on a final group project to develop a game, following structured coding practices.

WORK EXPERIENCE

Wegmans, Cashier, Alexandria, VA

July 2021 - Present

- Delivered fast, friendly customer service in a high-volume retail environment.
- Managed POS systems, including cash registers, scanners, and weight scales.

LEADERSHIP, HONORS, AND EXTRACURRICULAR ACTIVITIES

Society of Hispanic Professional Engineers, Member

Fall 2023 – Present

- Engaged in networking, mentorship, and professional development opportunities within the engineering community.
- Attended workshops and conferences focused on leadership and career advancement in STEM.

SKILLS

Technical: Java, Python, MS Office, Excel, AutoDesk CAD, Arduino Programming, MATLAB

Languages: Fluent in English and Spanish
